

ePAGE Doc Library

Issue April 24, 2006
Date:
Sources:
Key ePAGE Doc
Words: Library

Summary: The online Doc Library contains information for completing the ePAGE application and implementing the ePAGE grants.

Contents

The Doc Library houses the documents on various topics relating to completing the ePAGE online application and implementing the ePAGE grants. It explains the conventions of the ePAGE (such as passwords, starting and submitting an application), the different functions (such as Request for Funds, Final Financial Reports, and September 30 Reports), the application, budget, and implementation requirements of the grant, and it has links for the law and other guidance and resource documents. Browse through the index on the first page of the Doc Library to see what it contains.

Groups/ Organization

The Document Library is being sorted into groups to help you find information more quickly. The same document may appear under several different group headings. For example Nonpublic Consultation Forms are listed under Forms and again under Nonpublic School Services. To find a grant you must first know the ePAGE Funding Application (Consolidated or Competitive) it belongs under. If you are not sure, see the chart under Doc Library, ePAGE, Using the ePAGE Site, Structure (Map of the ePAGE).

Navigation

The Doc Library can be accessed by clicking Doc Library on the left menu from anywhere in the ePAGE. Also, it is accessible without a password. Go to the ePAGE Web site <http://e-page.doe.nv.gov/epage/login>). When the ePAGE home page opens, click Doc Library on the left menu.
